Summary

Full Stack Developer with hands-on experience building scalable web applications, RESTful APIs, and secure authentication systems. Applies practical Machine Learning and audio processing to engineer intelligent solutions. Strong foundation in modern web frameworks and end-to-end development, from clean frontends to production-ready backends.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, Java, C++, SQL
Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Material-UI
Backend & Cloud: Node.js, Express.js, RESTful APIs, AWS, Render, Vercel
ML & Audio: PyTorch, TensorFlow, ResNet, SE-ResNet, Librosa, Feature Extraction, SpecAugment
Databases & Tools: MongoDB, MySQL, Git, GitHub, Postman, Webpack, Chrome Extension APIs

Experience

Full Stack Developer Intern, DekNek3D Jan 2026 – Feb 2026

- Develop and optimize scalable full-stack web applications using React, Node.js, and Express.
- Design RESTful APIs and database schemas, resulting in improved application response times.

Technical Trainer Intern, CertifyO May 2025 – Jun 2025

- Delivered JavaScript and web development training to 50+ students, covering ES6+ and APIs.
- Designed hands-on projects including interactive web applications and REST API integrations.

Projects

VoxGuard AI — Multilingual Deepfake Speech Detector [GitHub Link](#)

- Designed an SE-ResNet PyTorch model to detect synthetic speech across 5 languages (English, Hindi, etc.).
- Applied sliding-window inference and temperature scaling over overlapping audio chunks for reliable confidence scores.

DataGuardian — Privacy & Security Extension [GitHub Link](#)

- Built a Chromium extension with a real-time dashboard to detect and block third-party trackers and scripts.
- Integrated Content Security Policy analysis and SSL validation using Chrome Extension APIs.

Repolens — GitHub Project Analyzer [Live Demo](#)

- Developed a full-stack Next.js application to evaluate GitHub repositories using deterministic engineering metrics and four independent code analyzers.
- Orchestrated parallel GitHub API requests and integrated Google Gemini to provide actionable, AI-enhanced improvement roadmaps.

Extracurricular Activities

Software Development team - Core member, Data Science Club, VIT Bhopal Jan 2025 – Present

- Led development of the official club website serving 500+ active users using React and Node.js.
- Implemented code splitting and lazy loading, achieving 40% faster page load times.

Contributor, GSSoC (GirlScript Summer of Code)

- Contributed to 10+ open-source projects through bug fixes, feature enhancements, and code optimization.

Education

VIT Bhopal University, B.Tech in Computer Science and Engineering 2023 – 2027

- **CGPA:** 8.91 / 10.00
- **Coursework:** Data Structures, DBMS, OOP, Computer Networks, Operating Systems, Machine Learning

MM Public School & Delhi Public School (CBSE) 2020 – 2022

- Class XII: 78% (2022) | Class X: 96.2% (2020)

Certificates

- NPTEL Online Certification: *Introduction to Machine Learning* (Elite Badge — 85%)
- Udemy: *The Complete Full Stack Web Development Bootcamp*
- Coursera: *The Bits and Bytes of Computer Networking* by Google
